

By the Numbers

1.5 Billions dollars lost annually by homeowners due to power outages

1 Years servicing the residential electrical contracting market nationwide

0 Times you have to worry about your most valuable assets during a power outage

Keep Your Lifestyle On

Power outages are painful. In addition to battery powered light, canned meals and cold showers, you are also at a loss of control as to when your life will return to normal.

IES provides standby power solutions that allow you the peace of mind of knowing your family is safe and secure in the event of an emergency. More than 3 million people lose power each week in the U.S. When natural disasters and emergencies hit, a standby generator can restore your power within seconds.

IES is the nation's largest residential electrical contractor and our locations have served the U.S. for more than 35 years. We offer a range of home standby generators allowing you to power a room or a whole house.

Keep your lifestyle on when the power goes out by counting on IES to provide a complete, customized and turnkey solution that eliminates the hassles and complications.

Why you benefit

- IES protects your family and value possessions during dangerous power outages
- Our status as the nation's largest residential electrical contractor equates to a name you can trust
- Our flexible and customized solutions allow you to choose the system that's right for your needs
